Individual expense items	Receipt required for any individual expense item of \$75 or more
Host/Hostess gift	Receipt required if the cost is \$25 or more

Please note: Reimbursement for meals and incidentals (M&IE) while traveling is based on actual expenses incurred (i.e., there is **no** M&IE per diem reimbursement allowed for domestic travel). Travelers may be required to submit receipts for meals if it appears the traveler routinely claiming the full M&IE amount (i.e., treating expenses for M&IE as per diem). There is no meal reimbursement for one day trip without an overnight stay (refer to Section V.E.3 for exception).

Foreign Travel

Type of Expenditure	Documentation Requirements
Lodging and M&IE incurred in a foreign country	Generally, lodging and M&IE incurred in a foreign country shall be reimbursed in accordance with the Federal Maximum Travel Per Diem Allowances for Foreign Areas published by the Department of State. When this method is used, no receipts are required for lodging and M&IE incurred in a foreign country. Per Diem amounts should be adjusted to reflect actual time spent in a given location (e.g. arrived at 6PM – meal per diem for that day would be reduced), for meals provided by a vendor or other host, or to reflect actual lower costs if requested by department. Refer to G-28 for method of calculation.
Airfare	Copy of itinerary showing proof/method of payment (PTA number* or credit card charged, for examples, Visa card xxxxxxxxxxxx1234)
Lodging and M&IE incurred <i>domestically</i> as part of a trip to a foreign county	Refer to the “Domestic Travel Less than 30 Days” section above.
